

Gyration In-Air Mouse and Keyboard

Case Study

“lots of them wanted a go!”

“Some people, who may not have liked to come out to the board, were having a go from their desks. ”

Use the Gyration GO 2.4GHz in Air range to promote participation in interactive whole class teaching!

On the desk, in the air, ANYWHERE!

“The pupils don’t have to come up to the board, so avoids disruption and waiting for pupils to settle back in their seats.”

“More pupils are willing to have a go”

“ Gyro mouse is good for matching-up exercises”

“ Typing on the board is neat and clear (unlike writing with the IWB pens)”
